Introduced 14/04/14 Amended 07/03/16, 01/12/19, 05/06/21

Note:

Post-announcement transactions: For the purpose of determining security holders' entitlements, the entity may ignore changes in security holdings which occur after the implementation of the trading halt in its securities (other than registrations of transactions which were effected through a market licensee's trading platform before the implementation of the trading halt).

Nominee holdings: Where securities are held by a nominee, the nominee is treated as a separate security holder in respect of securities held for institutional security holders, and securities held for other security holders, and may receive both institutional offers in respect of securities held as nominee for institutional security holders and retail offers in respect of securities held as nominee for other security holders. Institutional offers will be treated as being made to the nominee, even where made directly to the institutional security holder for whom the nominee holds securities.

Reconciliation issues: Any additional securities issued to reconcile institutional security holders' entitlements so that all eligible security holders receive their full entitlement under the pro rata issue will be treated as part of the pro rata issue and not as a separate placement, provided that the total number of securities issued under the pro rata issue does not exceed the total number of securities that could be issued under a pro rata offer in the ratio of the pro rata issue.

Managed investment schemes: Where the timetable refers to securities issued under the institutional offer, this includes for an entity that is or includes one or more managed investment schemes undertaking an accelerated pro rata issue relying on ASIC Corporations (Managed investment product consideration) Instrument 2015/847, the securities issued to retail investors who have accepted the offer by an early retail closing date. The institutional settlement date for these entities is likely to be later than in the indicative timetable set out above.

Nominee holdings: Where securities are held by a nominee, the nominee is treated as a separate security holder in respect of securities held for institutional security holders, and securities held for other security holders, and may receive both institutional offers in respect of securities held as nominee for institutional security holders and retail offers in respect of securities held as nominee for other security holders. Institutional offers will be treated as being made to the nominee, even where made directly to the institutional security holder for whom the nominee holds securities.

Reconciliation issues: Any additional securities issued to reconcile institutional security holders' entitlements so that all eligible security holders receive their full entitlement under the pro rata issue will be treated as part of the pro rata issue and not as a separate placement, provided that the total number of securities issued under the pro rata issue does not exceed the total number of securities that could be issued under a pro rata offer in the ratio of the pro rata issue.

Managed investment schemes: Where the timetable refers to securities issued under the institutional offer, this includes for an entity that is or includes one or more managed investment schemes undertaking an accelerated pro rata entitlement offer relying on ASIC Corporations (Managed investment product consideration) Instrument 2015/847, the securities issued to retail investors who have accepted the offer by an early retail closing date. The institutional settlement date for these entities is likely to be later than in the indicative timetable set out above.
